Your Pianos are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, sand is derived from the perfect purity of its tone, together with its sympathetic, elastic and well halvand together.

During the past eight years I have constantly played upon the justiy colebrated Erard Plance; yours are the mily instruments that I have found, either here or in Surope, to equal them in all their points of excellence. It may be estifatedary to our patrons and friends among the public at large to state that sattimental have been received from all the leading to the little who have visited or are now residing in the lutted State 2 few of whome names, besides those above, we appending the LECO.
